# SHORT DURATION HIGH YIELD FUND

SEEKING TO CAPTURE INCOME WITH DISCIPLINED RISK MANAGEMENT

**Objective**

The Chartwell Short Duration High Yield Fund seeks income and long-term capital appreciation by investing primarily in high yield debt securities with an average duration of less than three years.

**Morningstar Category**

High Yield Bond (HY)

**Portfolio Managers**

Andrew S. Toburen, CFA  
John M. Hopkins, CFA  
Christine F. Williams

**Fund Statistics as of 09/30/2018**

Inception Date	07/15/2014
Net Assets	\$73M
Number of Holdings	43
NAV	\$9.55
CUSIP	16140T400
12B-1 Fee	None
30-Day SEC Yield	3.69%
30-Day SEC Yield Unsubsidized <sup>1</sup>	3.45%
Effective Duration <sup>2</sup>	1.74 Yrs
Average Coupon <sup>3</sup>	5.27%
Average Price	\$101.69
Gross Expense Ratio <sup>4</sup>	1.10%
Net Expense Ratio <sup>4</sup>	0.50%
<b>Management (Advisory) Fee</b>	<b>0.40%</b>

Source: Ultimus/BondEdge

The 30-Day SEC Yield is computed under an SEC standardized formula based on net income earned over the past 30 days. It is a "subsidized" yield, which means it includes contractual expense reimbursements, and it would be lower without those reimbursements.

<sup>1</sup>The Unsubsidized 30-Day SEC Yield is computed under an SEC standardized formula based on net income earned over the past 30 days. It excludes contractual expense reimbursements, resulting in a lower yield.

<sup>2</sup>Effective Duration: A mathematical measure of the Fund's or security's price sensitivity that would result from a 1% change in interest rates.

<sup>3</sup>The weighted average coupon of bonds held in the portfolio.

<sup>4</sup>The Fund's advisor has contractually agreed to waive its fees and/or pay expenses until July 19, 2019, unless terminated by the Trust's Board of Trustees. The Fund's advisor is permitted to seek reimbursement from the Fund, subject to limitations, for fees it waived and Fund expenses it paid for three years from the date of any such waiver or payment.

**Seeking to deliver attractive income and capital preservation**

Chartwell's Short Duration High Yield Bond Fund stresses preservation of capital and compounding of income with bonds that we believe trade at attractive relative values.

**Maturity Distribution**

**Credit Quality**

As of 09/30/2018

Source: Chartwell

**Credit Quality:** Credit quality ratings are sourced from Standard & Poor's (the "S&P"), Moody's and Fitch's. Ratings values are based on the higher of either S&P or Moody's. If none of the rating agencies has assigned a rating, the Fund will assign a rating of NR (non-rated security). The ratings represent their (S&P, Moody's) opinions as to the quality of the securities they rate. The ratings range from AAA (S&P) or Aaa (Moody's) (extremely strong capacity to meet its financial commitment) to D (S&P, Fitch's) or C (Moody's) (in default). Credit ratings of BBB are good credit quality and the lowest category of investment grade. Ratings are relative and subjective and are not absolute standards of quality. The ratings provided relate to the underlying securities within the fund and not the fund itself.

## CWFIX

## SHORT DURATION HIGH YIELD FUND

**We employ a long-term investment strategy driven by independent research and unconventional investment views**

*“We invest in a very unique niche of the high yield market, creating a mix of high-quality, high-income, and short maturities that we believe generates consistent performance.”*

**Andrew S. Toburen, CFA  
Fund Manager**

#### Strategy

The Fund focuses on higher-quality high yield corporate debt securities seeking attractive short-term yields and lower volatility than the broad high yield and leveraged bank loan markets.

#### Management

Fundamental, bottom-up credit analysis focuses on business risk, financial risk, and covenant risk to identify individual securities that provide a balance of income and relatively low volatility. The high yield management process benefits from both a firsthand perspective of the investment grade corporate bond market and daily interaction with Chartwell's equity research teams.

**An investor should consider the fund's investment objectives, risks, and charges and expenses carefully before investing or sending money. This and other important information about the Fund can be found in the fund's prospectus. To obtain more information, please call 1-888-995-5505 or visit [www.chartwellip.com](http://www.chartwellip.com). Please read the prospectus carefully before investing.**

*Wholesaling and marketing efforts are provided by, among others, Chartwell TSC Securities Corp., an affiliate broker dealer, member FINRA. Chartwell Investment Partners, LLC and Chartwell TSC Securities Corp. are both wholly owned subsidiaries of TriState Capital Holdings, Inc.*

The ICE Bank of America Merrill Lynch 1-3 Year BB Cash Pay High Yield Index is a subset of The ICE Bank of America Merrill Lynch U.S. Cash Pay High Yield Index including all securities with a remaining term to final maturity less than 3 years and rated BB1 through BB3, inclusive. The Bloomberg Barclays Intermediate Gov/Credit index is an unmanaged index that tracks the performance of intermediate term US government and corporate bonds. One cannot invest in an index.

**Risks:** Fixed income investment includes the following risks: credit, prepayment, call and interest rate risk. Credit risk refers to the loss in the value of a security based on a default in the payment of principle and/or interest of the security, or the perception of the market of such default. As interest rates rise the value of bond prices will decline. High-yield bonds have a higher risk of default or other adverse credit events, but have the potential to pay higher earnings over investment grade bonds. The higher risk of default, or the inability of the creditor to repay its debt, is the primary reason for the higher interest rates on high-yield bonds. The Fund may invest in foreign and emerging market securities which involves certain risks such as currency volatility, political and social instability and reduced market liquidity. The Fund may also invest in ETFs (Exchange-Traded Funds) and therefore would be subject to the same risks as the underlying securities in which the ETF invests as well as entails higher expenses than if invested into the underlying ETF directly.

The Fund acquired the assets and liabilities of the Chartwell Short Duration High Yield Fund (the "Predecessor Fund"), a series of Investment Managers Series Trust, on July 17, 2017. As a result of the reorganization, the Fund is the accounting successor of the Predecessor Fund. Performance results shown (prior to July 17, 2017) reflect the performance of the Predecessor Fund. The Fund's past performance is not necessarily an indication of how the Fund will perform in the future.

#### About the Fund Managers

##### Andrew S. Toburen, CFA

Senior Portfolio Manager

Mr. Toburen earned a bachelor's degree in Economics from Yale University and an MBA in Finance from Cornell University's Johnson School of Management. Mr. Toburen has been with Chartwell since 1999.
