Seeking to deliver attractive income and capital preservation

We believe opportunity may lie in unexpected corners of the market. We think undiscovered businesses often offer strong potential for increasing earnings per share and competitive products and services.

SMALL CAP VALUE FUND

Integrating the efforts of quantitative analysis, fundamental analysis, and portfolio management.

“Our experienced team continually focuses on sifting undervalued investments from a set of companies that harbor investor doubt.”

David Dalrymple, CFA
Fund Manager

Quantitative analysis

Screens for inexpensive stocks using multiple valuation measures, and seeking to identify companies at the lower end of their historical valuation ranges that offer what we consider attractive risk/reward characteristics.

Fundamental analysis

Conducts comprehensive business reviews to develop a sound understanding of a company's business. Focuses on understanding the cause of a company's undervaluation and its ability to realize its valuation potential.

Portfolio management

Constructs the Fund's final portfolio using a bottom-up approach to stock selection. Weighs a number of factors including fundamentals, timing of catalysts, and growth prospects.

THE FUND ACQUIRED THE ASSETS AND LIABILITIES OF THE CHARTWELL SMALL CAP VALUE FUND (THE "PREDECESSOR FUND"), A SERIES OF INVESTMENT MANAGERS SERIES TRUST, ON JULY 17, 2017. AS A RESULT OF THE REORGANIZATION, THE FUND IS THE ACCOUNTING SUCCESSOR OF THE PREDECESSOR FUND. PERFORMANCE RESULTS SHOWN (PRIOR TO JULY 17, 2017) REFLECT THE PERFORMANCE OF THE PREDECESSOR FUND. THE FUND'S PAST PERFORMANCE IS NOT NECESSARILY AN INDICATION OF HOW THE FUND WILL PERFORM IN THE FUTURE.

An investor should consider the investment objectives, risks, charges, and expenses before investing. The fund's prospectus contains this and other information, and can be obtained by calling toll free (888) 995-5505 or visiting www.chartwellip.com. Read the prospectus carefully before investing.

Small Cap stocks may be less liquid and are more susceptible to market volatility because they may not have the management experience, financial resources, product diversification, or competitive strengths and tend to be sold less often and in smaller amounts relative to larger companies. Foreign securities involve greater currency valuation, economic, political, and regulatory environment risk relative to US securities. The Fund may invest in ETFs and therefore would be subject to the same risks as the underlying securities in which the ETF invests as well as entails higher expenses than if invested into the underlying ETF directly.

Wholesaling and marketing efforts are provided by, among others, Chartwell TSC Securities Corp., an affiliate broker dealer, member FINRA. Chartwell Investment Partners, LLC and Chartwell TSC Securities Corp. are both wholly owned subsidiaries of TriState Capital Holdings, Inc.
